Page 696 Ethics and Issues: Read Is Beta Testing out of Hand?

What is Beta Testing? Would you participate in beta testing software on your pc? Why or why not? Are Software manufacturers being honest about their intentions in their beta testing? If not, in what way? Is it reasonable for software manufacturers to beta test their software for the general public? If so, for how long?

Beta Testing Is A Program That Has Most Or All Of Its Features And Functionality Implemented.

Yes Because You Never Know What You're Going to Get.

Yes Because They Are Actually Giving You A Chance To Test Them.

Yes Its Reasonable Because If Not You Could Sell A Product Then Have Unhappy Customers  
Bash Your Company And You Could Lose Business In The Software Field!
